2ND Marriage & Mental Health Conference

Resources for couples with mental health or addiction challenges
through lived experiences & inspiring stories

Attendee Testimonials

"I've been looking for this information and support for the last 20 years and I am so grateful to have found this."

"This conference helped replenish some hope when I was starting to lose it. It made me feel less alone and gave me additional tools and resources to continue to fight for my marriage."

"I have heard many stories who share with mental illness since 2013 but never couples. It opened my eyes, made those eyes weep and gave me hope in my marriage again."

"The Marriage and Mental Health Conference was the highlight of my year. It was great to see authors I have read, a podcaster that I have listened to faithfully and meet new authors that I would like to read next. I have been waiting for years for a conversation and community about marriage and mental health."

"Thank you so much for this conference. This has been the most helpful resource we have found in our 11+ years of our journey with marriage and bipolar. The conference held a beautiful tension of the reality of our situations and hope and tools to continue pressing on."
